

## Bemerkung 1.4: Polynominterpolation (III)

Beispiel  $n = 4$ ,  $x_0 = 0$ ,  $x_1 = 1/4$ ,  $x_2 = 1/2$ ,  $x_3 = 3/4$ ,  $x_4 = 1$   
 $y_j = \sin \pi x_j$ , ( $j = 0, 1, 2, 3, 4$ )
