

# Bemerkung 1.4: Polynominterpolation (IV)

Beispiel  $n = 5$ ,  $x_j = j/5$ , ( $j = 0, 1, 2, 3, 4, 5$ )  
 $y_j = \sin \pi x_j$ , ( $j = 0, 1, 2, 3, 4, 5$ )
